A NAIL TRUST THREATENED.

TALK AMONG LOCAL DEALERS. THE CUT-NAIL MEN READY TO COMBINE, THOUGH

THE CUT-NAIL MEN READY TO COMBINE, THOUGH
THE SCHEME IS NOT PERFECTED.
Another trust, it is said, is about to enter the commercial ring. It is called the Nail Trust and is compased of the cut-nail manufacturers of New-England,
Mew-York, New-Jersey, Eastern Pennsylvania, Maryland
and Virginia. Twenty-five factories, employing 1,000
machines, which produced last year 2,069,692 kegs, are
reported to be in the deal. The reason given for the
new move is that prices have gone down about 40 per
cent in the last five years, while the stock on hand on
January 1, 1888, showed a large overproduction. An
agreement has therefore been entered into, the report
mys, by which it is expected that the production can be
cut down 40 per cent. Each concern is to pay e5,000
mits the pool, to be forfeited in case it fails to keep down
its production to the point agreed upon. The members of
the pool expect the Western manufacturers to follow
their example.

N. W. Taylor, of the well-known cut-nail firm of
Taylor Brothers & Co., No. 159 Greenwich st., admitted
Tailbunk reporter yesterday that such a combination

Taylor Brothers & Co., No. 139 Greenwich st., admitted to a Tribune reporter yesterday that such a combination was in process of formation, but denied that it partock of the character of a trust. "There are thirty-one concerns interested in the movement," said Mr. Taylor, " but not half of them have signed the agreement as yet. We were just as near to a similar understanding last October, but it all fell through for reasons I do not feel at liberty to disclose. The present attempt may also result in nothing. The statement that we intend to cut the production down do not cent is an arror, as well as the assection that each

The statement that we intend to cut the production down 60 per cent is an error, as well as the assertion that each company is to put up 65,000 as a forfeit. The figures in both cases are too high. There are reasons in plenty for seeking to raise the present unremunerative price of cut sails, and the movement ought to succeed, though I feel by no means sanguine about it myself. In a few days I may be able to give you definite information."

Other nail manufacturers and dealers in the city predicted yesterday that the scheme would fail because an advance in prices would stimulate production by mills remaining cutside of the combination, which would result as disastrously to cut-pail interests as the efforts of the sed inastrously to cut-pail interests as the efforts of the lack manufacturers in a similar direction did a year or more ago. The deal referred to, it will be remembered, unded in the complete discomiture of the tack men.

A "growler" gang hung about the alley way at No About 5 o'clock an Italian who lived in the rear tenement house started to go in through the alley way, and the Young ruffians tried to pick a quarrel with him, probably with the intention of emptying his pockets. He ran shouting into the house, and quickly returned with a Gozen other Indians, men and women. A fight ensued between the Italians and the "growler" gaug. Mrs. Margaret Delaye was thrown down and bruised severely. One of her assailants tried to pull a gold earring from her ear, but she held on to his hand and scrached until he let go of the trinket. An Italian with a club laid about him with such vigor that he broke the arm of one "tough" and scared the others away. The injured min was saught by a policeman and sent to Believue Hospital, where he will stay in the prison ward until his arm is
